Redwater School Renegades showcase skills in exhibition match

On Thursday, October 5, the Redwater School senior high boys' volleyball team engaged in an exhibition match against a squad of Renegade alumni. The match proved to be enjoyable and competitive, allowing former students the chance to reestablish connections amongst themselves and connect with the present high school students. Gratitude was extended to certain members of the senior high girls' volleyball team for their assistance in refereeing and scorekeeping.

Boxelder bugs invading Canadian homes

By Brandie Majeau

As autumn unfolds with warmth and sunshine, many Canadians are noticing a proliferation of small black and red insects invading their doorways, windows, and homes. Meet the boxelder bugs. Their appearance might suggest they are beetles; however, they belong to the insect family that includes stinkbugs and cicadas. So, the question arises: why are so many of them invading our peaceful fall

afternoons? Boxelder bugs are not an uncommon insect, but with the hot and dry conditions that characterized our summer, their development rates have accelerated. As leaves start to fall and our natural seasonal transitions take place, the trees that provide much of their habitat and food source—such as boxelder, maple, and ash—no longer offer the refuge they require.

home becomes a beacon of salvation. Boxelder bugs flock to heat sources and desperately search for any cracks and crevices that would serve as a suitable hibernation environment. As the outside temperature drops, they cluster together seeking warmth. You may spot a single insect or several scattered on a south-facing door or window in the afternoons, but if you

take the time to check carefully, one generally indicates the presence of more, and you are likely to find them clustered in the corners of those door or window frames. The good news? They are indeed a nuisance, and while they can bite, they generally do not unless handled. They are not known to cause any significant damage to buildings or plants, and they pose no harm to you, your children, or your

pets. They are simply a pest. The best defense against this mini army, desperate in its post-hibernation activities, is to ensure all crevices in your home are sealed, screens are repaired or patched, and doors remain closed. If they do manage to sneak inside, think twice before grabbing the flyswatter. Their insides are a reddish color that is very pungent, and this coloring may cause stains on light-coloured fabrics and walls. Since they pose no threat, consider using your vacuum to cleanly and efficiently suck them up and empty your canister outdoors.

by the aromatic scents of cinnamon, nutmeg, and apple, the step-by-step pie making course progressed throughout the afternoon, resulting in this homemade holiday favorite. The project supplied ample ingredients, allowing each guest to take home their pie and sufficient dough to attempt their own pies and pie fillings in the comfort of their kitchen.

The Abee Community Hall kitchen welcomed the enjoyment and mirth into its typically tranquil space. This apple pie course marks just the beginning. Plans are underway for a perogy-making course and a

bread-making course in the new year. However, as the new year is still months away, keep a close eye out for upcoming craft projects and days of cozy camaraderie, where guests are encouraged to bring their unfinished projects to the hall and work on them to completion while surrounded by friends. There's talk that Santa will also be making an appearance at Abee Hall on December 10. Why did you join Volleyball?

I joined volleyball because it is a fun and enjoyable sport that gets people involved and have a good time at the same time. I also wanted to learn more about the sport and get better at it. I think team sports are important because it gets kids to work together and trust each other, if not they can't win the game. Sports also get kids to be active while at the same time learning new skills that you did not know your body could do.

PUBLIC HEARING – Bylaw 1634/23 Amendment to Land Use Bylaw 1385/17

Sturgeon County Council requests public input on proposed Bylaw 1634/23.

The property owner would like to facilitate RV camping and address existing recreational development on their land at 302 57000 Highway 44. This land is zoned as R4 – Hamlet Serviced Residential District which does not allow this type of activity.

Public Hearing details

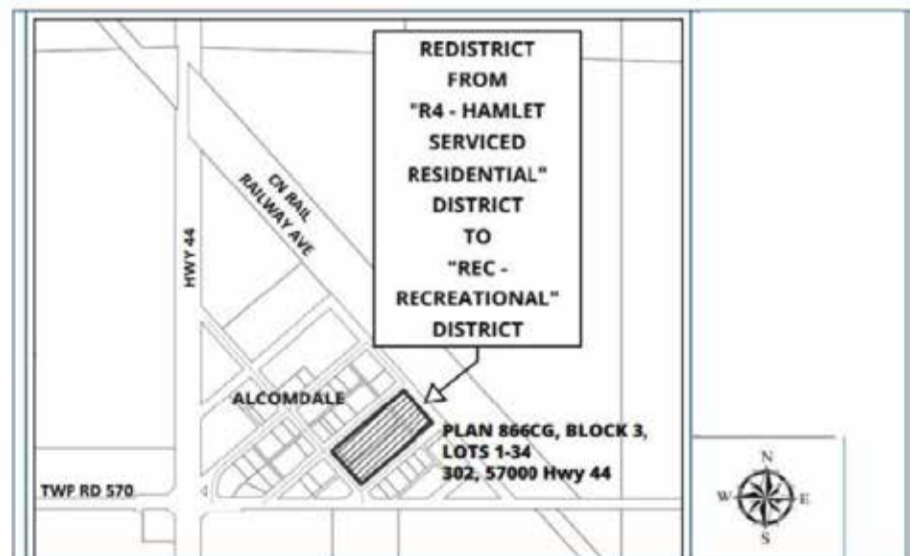

The Public Hearing will be held in person and via videoconference on: **Tuesday, October 24, 2023, at 1:00 p.m.** (or as soon as practical thereafter)

Sturgeon County Council Chambers (9613 100 St. in Morinville)
sturgeoncounty.ca/CouncilMeetings

To operate RV camping and outdoor recreation facilities in Sturgeon County, land must be zoned as REC – Recreational District. The applicant is requesting the land be rezoned to REC – Recreational District, which would allow them to apply for a campground development permit.

Each time land is rezoned, a bylaw is needed to amend the Land Use Bylaw, and a public hearing must be held.
